Dada Nabhaniilananda visited our school and led two, two hour workshops covering philosophy, music and meditation for a group of 24 students. The students simply loved it.

Their responses on their feedback sheets say it all:

"It made me feel a happiness that I hadn't felt since I was a small child" -Clare

"The heart circle was beautiful and magical. When I was in the middle, I had the feeling of falling backwards but I was being held. I felt as if there was someone I loved and trusted holding me up." -Clarissa

"I feel able to see things in a different way now, and see myself; to forget all judgments and trust in myself." -Patrick

"Dada's workshop really made me open minded and made me see from a different perspective." -Sara

"The workshop made me realize how powerful the mind really is." -Paxton

"The whole experience was beautiful. The only question I have is, 'when is he coming back?'" -Ashaina

As you can see, Dada's visit has had a major impact on everyone. We are certainly looking forward to his return to our school and highly recommend that you invite him to yours.

Respectfully,

Jordan Elliott Pierce  
Interim Superintendent
